## FILTRATION & WATER TREATMENT

# WATERCOM VITALIA

- **REDUCED OPERATING COSTS**
- **ULTRA SPACE-SAVING**
- **LOW-NOISE**
- **INEXPENSIVE TO PURCHASE**
- **COST-EFFECTIVE AND QUICK TO ASSEMBLE**
- **AVAILABLE ONLY FROM CF GROUP PARTNERS**

### **Everything is included!**

- CF Control 100 measuring, control and dosing system Version redox/pH or chlorine-free with Poolcare (time-controlled)/pH
- Remote monitoring CF Control 100 (Wi-Fi) via dinoAccess
- Flow valve with sample water monitoring
- Heating control incl. temperature control (optionally via heating or solar circuit); optional temperature sensor
- 2 peristaltic dosing pumps dinodos GO for disinfection and pH, up to 6 l/h flow rate at 1.5 bar back pressure, incl. suction set and accessories
- VITALIA VS speed controller for filter circulation pump
- Filter tank VITALIA 652S, diameter 660 mm. Laminated polyester tank with plastic glass lid (10 year guarantee), 6-way valve (2"), oil-filled pressure gauge, screw connection (2").
- Filling: VitroSphere filter beads or filter sand (optionally)
- Filter pump VITALIA Comfort 15W (15.2 m<sup>2</sup>/h at 10 mWC)
- Watercom compact design on filter pallet; dimensions: 1000 (l) x 830 (w) x 1250 mm (h)
- Pre-assembled at the factory, wired, tested

**Watercom stands for compact, space-saving "All in One" swimming pool technology.** Everything included:

Automatic measurement, control and dosing with remote monitoring via smartphone or similar Complete filter technology with robust filter pump, energy-saving and noise-reducing filter pump control, heating control, safety functions, etc. in addition.

Watercom VITALIA – the best water quality is no longer a question of the price.

## + CONVENIENT

Space-saving, clearly arranged and quick to install on site. The smart Watercom design makes it possible.

## + COMPLETE

The Watercom VITALIA is almost completely pre-assembled. The filter pump is pre-piped, sample water extraction and return as well as the injection points for pH minus and disinfection are pre-set.

## + ECONOMICAL

VITALIA VS filter pump speed controller. Saves electric energy\*, reduces pump noise\* and improves the filtration quality. Daily filter times and operating modes are set via the touch screen.

Integrated peristaltic dosing pumps for pH correction and disinfection

\* depending on operating conditions, compared to standard operation of a pump without controller

## DINOACCESS APP

Display of all important parameters and settings of the CF Control 100 system in the dinoAccess app. Intuitive menu navigation to ensure an easy and convenient operation of the CF Control.
